16. The benefit of promotion to a higher grade accrues only from the date the officer actually takes charge of his new office i.e., from 1-4-48 in the present case. To give him the benefit of promotion from a prior date (though the period is short) when he was on other duties would only amount to enriching the officer by way of additional allowance who did not discharge the duties of the post to which he is promoted. Besides Govt. are called upon to bear additional burden in the shape of paying charge allowance to another officer who actually discharged the duties of the post.

17 In effect, the recommendation amounts to giving acting allowance to one and charge allowance to another, the expenditure being incurred in respect of a single vacancy for a short duration. Such multiple arrangements made in respect of one post are to be avoided wherever possible.

Under these circumstances, the officer who actually discharged the duties of the post need alone be paid charge allowance admissible under the rules.

Constitution of a separate —— for Iron and Steel Works at Bhadravati.

READ—

Letter No. E. 15-77—44, dated 7th August 1944, from the Chief Conservator of Forests, submitting proposals for the constitution of a separate Fuel Supply Division in connection with the supply of fuel and charcoal to the Mysore Iron and Steel Works, Bhadravat

2. Un-official Note No. 36—44-45, dated 21st December 1944, from the Chief Conservator of Forests in the matter.

ORDER No. A. F. 2529-31—FT. 245-44-2, DATED BANGALORE, THE 21ST NOVEMBER 1945.

The present arrangement for the supply of fuel and charcoal to the Mysore Iron and Steel Works, Bhadravati, having been found inadequate to meet the needs of the Works, its Board of Management at a meeting held on 30th March 1944 decided to constitute a separate Fuel Supply Division for Bhadravati to ensure regular supply of fuel and charcoal to the Works, instead of drawing supplies from four Forest Divisions. It was also decided that all areas operated upon for the supply of fuel and charcoal should be integrated into one unit, and placed under the charge of a separate officer. In order to implement this decision and to overcome the difficulties at present experienced, the Chief Conservator of Forests has submitted a scheme for sanction, the main features of which are :—

(*a*) To constitute a separate Fuel Supply Division at Bhadravati, its jurisdiction being extended over all the forests now being tapped for supply of fuel and charcoal to the Works and such other areas as may have to be taken up for exploitation.

(*b*) The new Division to supply fuel and charcoal to the Mysore Iron and Steel Works at Bhadravati and bamboos to the Mysore Paper Mills. It should also supply bamboos and tent poles to the Southern Army and respond to minor indents for fuel supplies from industrial concerns located within its jurisdiction. besides attending to the regeneration of exploited areas.

(*c*) To create a post of Senior Assistant Conservator in grade Rs. 500-50/2 600 with a duty allowance of Rs. 75 per mensem and promote Mr. H. S. Rangachar, Assistant Conservator of Forests, to the post for being in charge of the new Division.

(*d*) To allocate the present Sub-Assistant Conservators to the newly formed charges and to renew the scheme and the establishment sanctioned in connection with the artificial regeneration of forests as also the establishment sanctioned for the supply of bamboos to Paper Mills.

(*e*) To appoint ministerial and menial staff.

2. The proposals are reported to involve an additional expenditure of Rs. 14,400 per annum and the Chief Conservator of Forests has also suggested that this expenditure may be borne by the Mysore Iron and Steel Works as the new Division is proposed to be formed mainly to facilitate supplies to the Works.

3. After a careful consideration of the question, Government are pleased to sanction the proposals of the Chief Conservator of Forests referred to above, for a period of two years, the appointment of Mr. H. S. Rangachar to the newly created post being however provisional in the first instance.

4. With the creation of this Fuel Division, the charges of the existing six Sub-Assistant Conservators who are at present employed in the three Forest Divisions in which the fuel supply operations are in progress will be re-distributed as indicated in the appended statement—Statement I.

5. Sanction is also accorded to the appointment of the marginally noted temporary staff for a period of two years and the staff will be re-allocated as detailed in the appended statement —Statement II.

1. Two Accountants on Rs. 100—5—125 each per mensem.
2. Two Clerks on Rs. 25—2—45 each per mensem.
3. Two Clerks on Rs. 25—2—45 each per mensem for work under the Sub-Assistant Conservators functioning as Assistants to the Officer in charge of the Fuel Supply Division and stationed at Shimoga and Sagar, respectively.
4. Four peons (one on Rs. 13 per mensem and two on Rs. 11 per mensem each and one on Rs. 12 per mensem) for work in the Fuel Supplies Office and for attendance at the residence of the Officer in charge of the Fuel Supplies Division.

6. The Chief Conservator of Forests is requested to submit a report to Government on the question of debiting the expenditure involved to the Mysore Iron and Steel Works, after obtaining necessary data and consulting all concerned and also on such other allied questions as retrenching one of the existing Forest Divisions as a result of the constitution of a separate Fuel Supply Division.
